THE BLUES FOUNDATION

QUOTES

"Danny Brooks has definitely "kicked it up a notch" with his new CD and first single "Hold On." Danny has brought the classic soul of Memphis into 2005. His vocals are "spicy" hot and the lyrics to "Hold On" will take you to a soulful place not unlike Stax Records. Rock 'n' Soul at it's best.

John Donabie - CFRB Radio - Toronto

"Hold On" is a sizzling new tune with an old R&B beat that not only takes you back to the roots of "Carolina Beach Music", the feel and lyrics allow you to drift back in time with memories of songs and artists that has created one of the most unique cultures in the music world. You do not want to drive under the influence of "Hold On".

Kyle Beam - Right Reverend of Beach Music - Charlotte North Carolina

"The man that brought us "The Other Side of the Cloud" now has another great new hit called "Hold On". Check it out!"

Judy Collins - Judy's House of Oldies - North Myrtle Beach South Carolina

"Riding the success of his smash hit "Other Side of the Cloud", Danny Brooks provides us with a song full of soul that just smokes from beginning to end!"

Craig Flemming - www.beachmusic.com

"Hold On" takes me back to a much simpler time in life, back to the golden days of AM radio. Danny Brooks is one of my favorite singers going today, not to mention a great guy. His honesty comes through in the vocal deliver, great backing track by "The" Richard Bell and the band. This is a great song, give it a listen, it'll make you smile like you did back in 1969. If you're gonna hold on, hold on to the music of yesterday."

Greg Martin - The Kentucky Headhunters & The Mighty Jeremiahs - WDNS - 93FM

Produced by award winning keyboardist, Richard Bell. Former member of Janis Joplin and The Band. Richard also arranged the horns. If you love Stax/Muscle Shoals, you will love "Rock This House"!

DANNY BROOKS

The distinctive Danny Brooks' sound embodies a hybrid blend of original music based in 'Old school' R&B, Blues, Soul, Gospel and Country with just enough of a modern feel to give it a unique fresh flavour. Danny Brooks and The Rockin' Revelators have a soulful power packed live show that is both memorable and electrifying. Multi Juno nominee and Maple Blues nominee for "Best Male Vocalist and "Best Gospel Recording", Brooks is fueled by true-life raw emotion and gut wrenching sincerity. From a large family in a poor neighbourhood, life on the street, addictions, incarceration, rehabilitation and finally, redemption, Brooks has a deep well to draw from.

Jim Dickinson, legendary Memphis producer stated "Danny's voice tells you he's been through the pain of experience and the promise of hope. His songs say it all." Brooks' previous recordings have all received consistently excellent reviews from industry and fans alike worldwide.

On this CD, Brooks tips his hat to his musical mentors, Hank Williams, Solomon Burke, Otis Redding, Taj Mahal, Blind Boys of Alabama, and John Lee Hooker who helped shape this recording.

Earlier Quotes

"Listening to Danny Brooks' latest 'Soulsville' is like driving out of Memphis, TN on a sunny Saturday morning into the Mississippi Delta, listening to WDIA. It's one of those things where time stands still. A dash of Eddie Hinton, Solomon Burke, Rev. James Cleveland and Howlin' Wolf are all ingredients in Danny's soulful musical stew."

Greg Martin The Lowdown Hoedown/WDNS FM - Bowling Green Kentucky

"Danny Brooks has provided a much needed break from the ordinary on his very creative release. This one is most definitely a winner and an absolute revelation!"

John Muller UJBN

"At times you can really distinguish the Brooks line going straight back to rural poets and folkies of the past such as Leadbelly."

Geoff Chapman Toronto Star

"This CD is a "must have" for lovers of country soul and the Muscle Shoals sound! 'Souled Out 'n' Sanctified' indeed!"

Shades of Blues/R&B Primer / UK

"Enough soul to light up a Harlem church!"

Tony Peyser - Santa Monica Mirror

"LivinBlues - Bone shaking Gospel, Blues, Soul, ' Country."

Gary Tate LivinBlues

"Toronto roots rocker Danny Brooks, part street-worn evangelist and part Blues savage, hoes a tough row. This is roots music of great distinction."

Greg Quill - Arts writer - Toronto Star

"Soul powered, knock out Brooks sings like a combination of Levon Helm and Eddie Hinton. How did he learn that in Toronto?"
